Report Description

This report presents available information from the Resource Conservation and Recovery Act Information System (RCRAInfo) about compliance evaluations, violations, and enforcement actions meeting the criteria supplied by the user. Evaluations showing no violations does not always indicate that no violations were determined. Violation without enforcement actions does not always mean no enforcement action will be issued. In order to avoid releasing enforcement sensitive information to the public the following information is not shown on the report: pending violations at a facility are not shown unless the violation has been addressed by either a warning letter or a more formal enforcement action taken by EPA or the State, pending judicial referrals, criminal referrals, and State to EPA referrals.
